

Dear all

In this week's digest:

- Two PostDoc positions have just been opened at the Department of Civil and Environmental Engineering (National University of Singapore). The positions are within the project "On the origin of droughts in Mainland Southeast Asia—implications for water and energy security", funded by Singapore's Ministry of Education. Additional details about the project, expected qualifications, and application procedure are available at https://people.sutd.edu.sg/~stefano_galelli/openings/
- Applications for CSIRO Data61 PhD scholarships are open until **3 November**, see project summaries at <https://go.csiro.au/FwLink/2022D61PhDs> and <https://go.csiro.au/FwLink/2022D61PhDsFull> and apply at: <https://jobs.csiro.au/job/Various-Data61-PhD-scholarships/932023710/>
- **One week to go** for the call for sessions for MODSIM2023, open until **21 October**, see details at <https://mssanz.org.au/modsim2023/streams.html>
- Nominations for MSSANZ Fellows **close next week** on Tuesday **18 October**, submit at <https://mssanz.org.au/forms/mssanz-fellow-nominations/>

If you would like something included in this digest, please email it to office@mssanz.org.au

Kind regards, Karen
