

Dear all

In this week's digest:

- The Department of Operations Research (OR) at the Naval Postgraduate School (NPS) in Monterey, California seeks applications for an open-rank tenure-track position in the area of Statistics and Data Science, with particular interest in candidates with expertise in applied statistics, machine learning, data mining, and/or experimental design and analysis. The review of applications will begin immediately, and applications will be accepted through April 15, 2022. See the official announcement here: [Hiring - Operations Research](#)
- The Tropical North Queensland Drought Hub (TNQ Hub) at James Cook University has a position available for a Research or Projects Officer, Desktop Modelling. The position is based at the JCU Townsville, Bebegu Yumba campus, Douglas. Applications close on Sunday 3 April. See <https://www.jcu.edu.au/recruitment/tnq-drought-hub> for further information or contact Professor Yvette Everingham, yvette.everingham@jcu.edu.au

If you would like something included in this digest, please email it to office@mssanz.org.au

Kind regards, Karen
