UNSW
SYDNEY

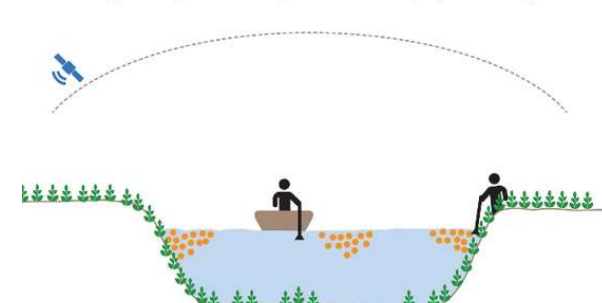

Remote sensing of water quality

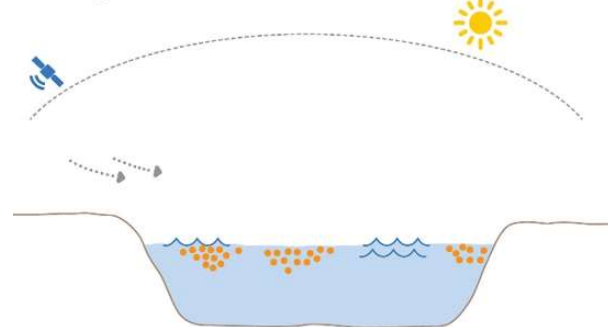

Challenge 1 algae dynamics

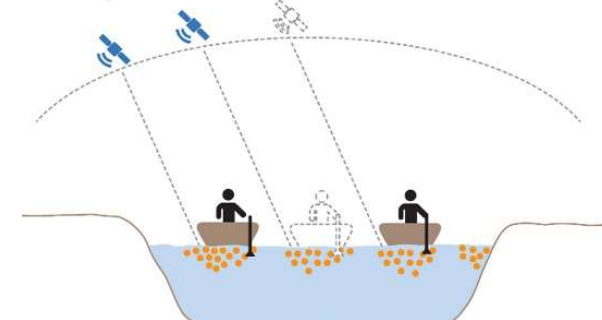

Challenge 2 algae mixing with macrophyte at edge

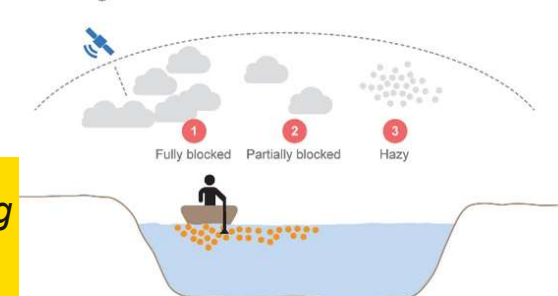

Challenge 3 correction models

Challenge 4 Satellite overpass / revisit time

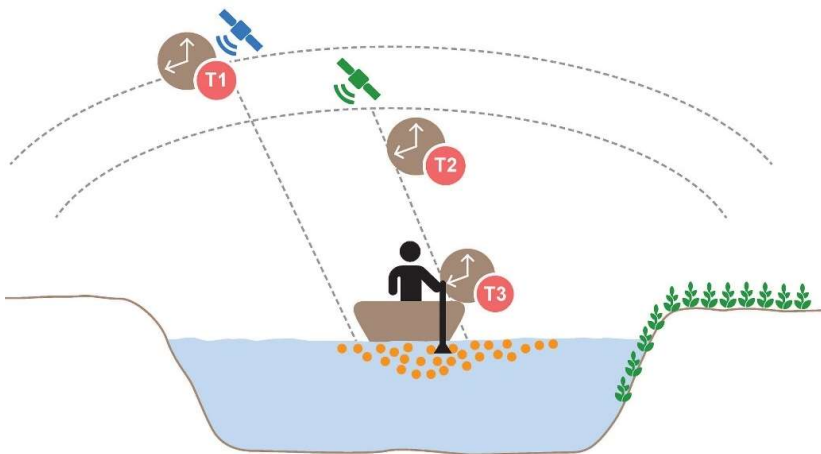

Challenge 5 Cloud and haze

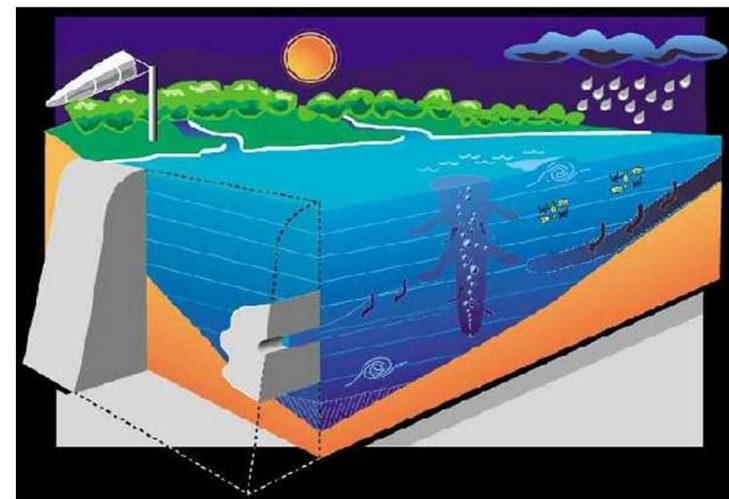

* Liu S; Glamore W; Tamburic B; Morrow A; Johnson F, 2022, 'Remote sensing inland waterbodies', *Science of the Total Environment*, 851.

Integrating remote sensing & water quality model

- Remote sensing to validate the WaterNSW Integrated Water Quality Model.
