

The Road to a Special Interest Group (SIG)

EXPERIENCE OF THE WATER QUALITY MODELLING SIG

Let's go on a roadtrip!

- Initiators put forward an idea to start a group
- Could be based on a MODSIM session

Identify group needs, goals activities

- Clarify realistic scope
- Workshop ideas in an advertised meeting
- Develop a list of interested people

Build an inclusive community

MODSIM conferences act as regular touchpoints

Group activities between conferences

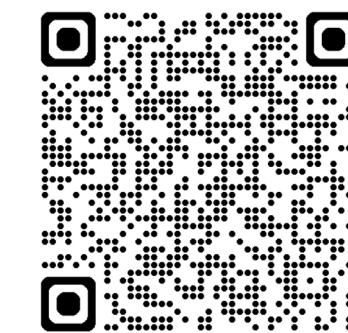

Committee activities

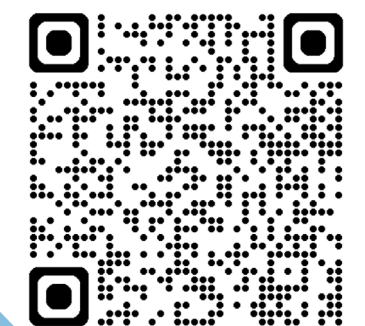

Inter-MODSIM formal meeting

1st Australia and New Zealand Water Quality Modelling Symposium

Document SIG terms of reference

SIG pages on MSAANZ website

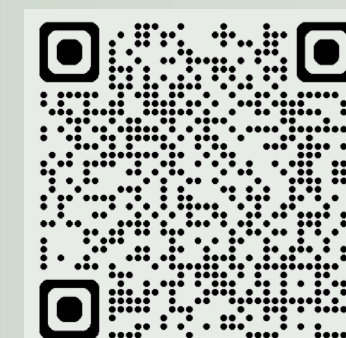

Co-opt initial committee

Online survey of needs and potential activities of the SIG

Workshop to identify modelling issues and futures

Group paper

Sub-group activities

Seminar series on AI and ML in water quality modelling

Workshop

- Reporting
- Refresh committee
